Pre-Certification

Definition: An advance review of a proposed facility admission to determine whether the proposed admission meets the medical necessity criteria and to ensure that the member receives the maximum benefits available under the subscriber's plan. When a review is required contact us as soon as the admission is scheduled, but no later than two working days after the admission occurs. In addition to what is listed above, have the clinical information supporting the admission. We will complete the review in one business day.

Concurrent Review

Definition: An ongoing review during the member's care, to ensure that it meets established medical criteria and appropriateness. Concurrent review may be performed on select cases. Our clinicians will collaborate with the facility's utilization review/discharge planner/social worker.
